The tombs are well hidden with only 63 of them known and 15 open to the public. Perhaps the most famous but not the most important one is that of **Tutankhamun**. **Queen Hatshepsut** was the first known for certain to build a tomb within the valley. When the Aswan Dam was created, the waters of the Nile River threatened to submerge the two temples built by the Egyptian King Ramses II. In the 1960's the Egyptian Government and UNESCO sponsored a project to save the site and by means of a complex engineering feat these temples were dismantled and reconstructed 200 feet (60 metres) above their previous site. Some 16,000 blocks were moved. This afternoon sail around **Elephantine Island** on a local felucca boat.

Later discover spiritual Cairo which includes Coptic Cairo. Visit the famous Hanging Church, the crypt where the holy family took shelter for 2 weeks during their flights from Jerusalem to Egypt and the **Old Synagogue** where the prophet Moses prayed to God to save the Israelis from the pharaohs. Then discover Islamic Cairo and the Khan el Kalili market.

**Day 10:** Today transfer to the airport for your flight home.

**POSSIBLE EXTENSION: The White desert** is made up of unusual white rock formations, the result of erosion of the limestone bases, over centuries of wind blowing through the desert. The shapes are incredible, defying gravity with their small bases holding up huge rocks. Everywhere you look, different formations rise up out of the desert floor, forming a variety of shapes. Colors change with the changing light of the day, with moonlight giving an eerie feel to the snowy looking surroundings and sun turning the rocks into delicate pink and orange hues. Camping out in the desert gives the opportunity to see the changing colours of this incredible landscape. You will also get to see desert foxes that seem to have a radar for camp fires and the possibility of scraps of food. The ride into and out of the White Desert is an experience in itself. 4x4 jeeps bump through the desert roads. Lunch will be at el haiz Village where you can refresh in a warm water spring. Stop at Al agabat for photographs. Overnight in a tent. Day 2 drive to the black desert which is an area covered with volcanic shaped mountains. Back to Cairo before sunset.
